

PRODUCT PROFILE

LITHOFOUNT UCTP SERIES

A new generation of ecological fountain solutions for CTP plate technology

We have developed a new series of LITHOFOUNT UCTP to meet the needs of the new computer-to-plate technology

LITHOFOUNT UCTP series is especially designed to have a minimal adverse effect on the image area of baked or unbaked CTP and positive printing plates. It combines the latest innovations in fountain technology in an easy to use concentrate. UNI LITHOFOUNT UCTP formula, with its strong buffer system, permits use in all waters. It is especially effective in eliminating alcohol on presses with a continuous dampening system.

FOR WEB PRESSES

UNI LITHOFOUNT UCTP W

An acid fountain solution meeting the needs of the new computer-to-plate technology. Reduces ink and water consumption, allows cleaner, faster start-ups and gives better density. *Code 260*

UNI LITHOFOUNT UCTP W2

A one-step, alcohol-eliminating fountain solution concentrate designed to meet the needs of the computer-to-plate technology. Reduces ink and water consumption, allows cleaner, faster start-ups and gives better ink density and gloss. *Code 262*

FOR SHEETFEED PRESSES

UNI LITHOFOUNT UCTP S

An acid fountain solution meeting the needs of the new computer-to-plate technology. Reduces ink and water consumption, allows cleaner, faster start-ups and gives better ink density and gloss. *Code 236*

UNI LITHOFOUNT UCTP S2

A one-step, alcohol-eliminating fountain solution concentrate designed to meet the needs of computer-to-plate technology. Reduces ink and water consumption, allows cleaner, faster start-ups and gives better ink density and gloss. *Code 238*

PP101-E
