

PRODUCT PROFILE

UNI LITHOFOUNT SM 16

Fountain solution concentrate for silver & metal plates

UNI LITHOFOUNT SM 16 is specially designed for plastic and paper plates. Its balanced formulation keeps non image areas highly hydrophilic, while image areas remain highly ink receptive. **UNI LITHOFOUNT SM 16** formulation contains special ingredients which optimize ink/water balance.

It can be used on most plates (except electrostatic plates) and be safely applied on installations where metal and plastic plates are used alternately.

ADVANTAGES

- Specially designed for Silver Master plates.
- Contains no isopropyl alcohol 99%.
- Excellent for production alternating between metal and paper plates.
- Designed for all types of duplicator and small sheetfed presses which use plastic, paper and metal plates.

DIRECTIONS

When applied, **UNI LITHOFOUNT SM 16** can be diluted between 1:10 to 1:16 parts of water depending on dampening and inking systems.
