

PRODUCT PROFILE

UNI D.C.

Highly concentrated dampener roller cover cleaner

UNI D.C. is specially formulated to remove ink from sleeves. This formulation enhances the water affinity of dampening covers. **UNI D.C.** leaves no residue, so it will not spoil your next run. It is safe to use with all brands of sleeves.

ADVANTAGES

- Economical by extending the life of dampener roller cover
- Does not break down the fibers of roller cover
- Quickly drives out ink, gum and other contaminants

DIRECTIONS

Dilute with hot water to desired strength, usually 2 to 3 parts of water to 1 part of **UNI D.C.**. Use in your roller washing machine or apply directly to sleeves without filling tank. If desired, wire brush and/or squeegee may be used. Keep sleeves moist with water. Rinse and squeegee. Repeat operation until sleeves are clean. For hand washing, best results are obtained by using **UNI D.C.** undiluted. With a proper rinsing, your cover will maintain a pH of 7 (neutral) with little effort.
