

# PRODUCT PROFILE

## UNI ROLLER LUBE

### Friction reducing compound

**UNI ROLLER LUBE** is an extremely effective anti-friction liquid lubricant designed to preserve and protect ink rollers from friction, wear, and oxidation. It is non-toxic and has an extremely high flash point of above 280° F.

#### ADVANTAGES

- Lubricates and conditions idle rollers
- Protects costly rollers on a dead unit
- Liquid applies easily and quickly coats rollers

#### DIRECTIONS

Apply full strength to upper rollers of non-printing unit and allow full distribution throughout roller train. Use as required. We recommend a roller wash-up before next printing color in the unit.

Safety data sheet available upon request
