

PRODUCT PROFILE

UNI ALCOFOUNT-3

Alcohol replacement

UNI ALCOFOUNT-3 is an isopropyl alcohol replacement used where ink drying time is a problem. **UNI ALCOFOUNT-3** gives you the same results as **UNI ALCOFOUNT-1** with the advantage of improving drying time, which will in turn increase production capabilities.

ADVANTAGES

- Compatible with all fountain solutions
- Very high flash point
- Will not "harden" rollers like isopropyl alcohol
- Does not evaporate, therefore, no replenishment required
- Significantly reduces ink consumption by preventing its emulsification
- Speeds production schedules where ink drying is a problem

DIRECTIONS

Mix between 1 oz to 6 oz of **UNI ALCOFOUNT-3** with 1 gallon (128 oz) of diluted fountain solution. If you use **UNI ALCOFOUNT-1** already, mix the same dosage.
