

PRODUCT PROFILE

UNI 395

Heavy-duty plate cleaner desensitizer

UNI 395 heavy-duty plate cleaner desensitizer is a white creamy emulsion with mild abrasive that cleans and desensitizes printing plates. It is used to remove wet and dry ink, oxidized spots, scratches etc.

UNI 395 heavy-duty plate cleaner desensitizer prevents oxidation and desensitizes plates to allow better ink receptivity.

ADVANTAGES

- Heavy-duty cleaner for all type of plates except unbaked positive plates
- Removes all new and dry ink from the plate
- Removes all gum streaks, spots and oxidizing scum from the plate
- Can be used on the fly when press is running

DIRECTIONS

Shake Well Before Using

Apply light pressure with a sponge or rag over all the plate, after a few seconds remove residue from the surface with a clean, wet rag or sponge. Commence printing or apply storage gum.
