

PRODUCT PROFILE

UNI RAPIDO

Economical fast one-step wash for rollers and blankets

UNI RAPIDO gives a deep-cleaning wash-up to rollers and blankets. It prolongs roller and blanket life while maintaining them in a livery and revitalized condition.

It has extra fast drying speed and high ink solubility to give a quick, deep-clean wash-up without damage to rubber blankets or rollers.

Wash-up time is reduced to a minimum because there is no waiting for the blanket to dry and no greasy residue. Therefore, **UNI RAPIDO** is a solvent mainly used on duplicators, small and medium offset presses.

DIRECTIONS

BLANKETS:

Use regularly as necessary.

ROLLERS:

Use as an effective everyday wash. We recommend using **UNI O.D. DEGLAZER** with **UNI RAPIDO** as part of your regular roller maintenance program.

SPECIFICATIONS

- Flash Point: -7°C (19°F)
