

PRODUCT PROFILE

UNI 160

Odourless, water miscible roller & blanket wash

UNI 160 R&B WASH gives an odourless deep-cleaning wash up to rollers and blankets. It prolongs roller and blanket life while maintaining them in a lively and revitalized condition. It has a medium drying speed and high ink solubility to give a deep-clean wash up without damage to rubber blankets and rollers.

By adding 25% to 50% water to a water-miscible wash, you reduce product cost and raise the flash point. Odourless, as well as very low V.O.C. emissions, **UNI 160 R&B WASH** is the ideal product for safety concerns.

ADVANTAGES

- No odour
- Economical, may be diluted with water up to 50%
- No chlorinated solvent
- High flash point
- Non toxic*

DIRECTIONS

BLANKETS:

Must be used on a wet wash-up rag. Add **UNI 160** full strength to rag or mix with up to 50% water in a wash-up bottle to remove both water-soluble and solvent-soluble glaze as well as blanket piling and lint at the same time.

ROLLERS:

Apply full strength or mixed with up to 50% water to remove wet ink, gum glaze, paper fibers and lint. Use with **UNI O.D. DEGLAZER** as part of a press maintenance system.

SPECIFICATIONS

- Flash point: 51°C (124°F)
- Vapour pressure; 0.07 KPA (20°C)

*According to W.H. M.I.S. criteria
